Overall Average(I&I	19.8	20.2	20.3	22.2	24.5	23.9	23.2	22.0

Note:- i) The T&D losses for 1996-97 includes the system losses in A&N Islands, Lakshadweep, Dadra & N'Haveli, Daman & Diu, Chandigarh, DVC, BBMB

ii) Power Sector reforms were initiated and Orissa State Electricity Bo was restructured into three separate entities viz. Orissa Power Power Generation Corp.(OPGC-for thermal generation), Orissa Hydro P Power Corp. (OHPC) and Grid Corporation of Orissa (GRIDCO-for trans & distribution) with effect from 1st April, 1996. The sudden jump T&D losses from 23.8% in 1994-95 to 46.9% in 1995-96 in case of Ori is due to the realistic assesment of T&D losses in the power system after restructuring of OSEB. Similar position can be observed in c Haryana & Andhra Pradesh States who opted for power sector reforms.
